

TEATRO

Luca Scacchetti

The miter cut details of this dressing table's legs follow the design concept of TEATRO collection. The design language shows the balance between beauty and practicality by integrating multiple forms of storage and automatic folding mirrors into a single piece of furniture. Furthermore, its leather baseboard provides a texture of fine quality enhanced with the jewelry box under the mirror.

STRUCTURE

Base and legs in solid wood, structure in veneer on particles board, middle part with flipped-over mirror in lacquered MDF wood, under mirror board is jewellery box

FINISHING

Structure in walnut or stained oak, middle part of the table top in lacquer
